The following from Col. W. J. Lampton, the Kentucky humorist transplanted to New York City several years ago, ls presented for the consideration of our readers. We appreciate Col. Lamp-ton's view of the great bargains we are: offering our readers. We modestly admit the force of his observation and argument. Now is the time to subscribe:

Mr. Editor:-I was so struck by the newsy appearance of the NEWS of April 14 that I took a few minutes off to sum up what you were offering your readers in that one issue, and would you believe it, there were five hundred separate and distinct items of news? Can any other 8-page country news-paper equal it? Less than 2 cents, each reader pays for 500 news articles. For one dollar he gets 52 times as many, or twenty-six thousand news Items. Oh, say, aln't you giving them too much for their money? However, what other Kentucky country paper can line up with the NEWS for news?

#### CLEAN UP DAY.

Thursday, Friday and Saturday have een designated as clean up days for Louisa. Nearly every city, town and village in the State of Kentucky has its appointed time for being made clean, and our own city should not fall in the rear of the procession, but enter fully into the spirit of the occasion and try to be first and foremost in the ef-fort to be clean. Louisa is a pretty little town. Nature has made it so, but the carelesness or indifference of its people have allowed it, at times, at least, to look quite the reverse. There should be some organized effort along the lines of endeavor, and all pull togetber. For goodness sake clean the streets, if you do no more. Take away all unsightly boxes, barrels, boards, and brush heaps. Let nothing remain unsightly which can be taken away. And, for heaven sake don't forget your own

Although cuitivation induces a rapid growth and results in the best development of which the vegetable is capable, one should not be mis led into the idea that repeated cultivation and good care alone can transform an inferior variety into one of superior quality. Quality is inrgely a matter o variety, so for this reason one should exercise judgment in his selection of varieties and choose only those posses sing the character sought.

The variety for canning should not only be of high quality but should also be of the dark red turnip shaped type The lighter types are nodesirable for canning purposes. The following varieties are of known merit and can be recommended for canning: Detroit Dark Ited, Edmond's Early Blood and Model Red Giobe or Dark Stinson,-III Monthly Bulletin.

Anyone who cares to take note of the proportion of rural and small town automobilists among the driver-owners who figurs in Louisville aecidents must Kinner Dean spent Sunday evening drivers are much more careful than countrymen who slt at a steering whrel It is not hard to understand why this should he so. Little attention is to speed laws on country roads. Drivers who are habitual scorehere on country roads and occasionally drive in city streets find habit second nature. negiect proper precautions. Another cause of the comparative recklessness of country motorists may be that one of the favorite pastimes of the rural sections of Kentucky always has been to "aplit the pike wide open." Before the advent of automobiles n youns man's happiness and in a measure his popularity among his social acquaint-ances, was determined by the speed and "bottom" of his horse and by his willingness to take all of the risks of the road in the interest of defeating all

rivals. What could be more logical, and inevitable, than that the ideal of happithe driving of horses should animate the driving of automobiles and that neighborhood rivairies for the palm for speed and recklessness still should be

cherished? But machinery is no respecter of persons, as the recults of the fast driving of the ruralists amply prove. In the list of avoidable accidents, many of them fatal to the motorists and many fatal to others, the names of the harddriving, nmalt-town or country owner figure out of all proportion to the num-ber of such owners as compared with the number of urban drivers.-Courler-Journal.

The situation in Mexico is very critical. The antagonism of the Mexican people in general has caused the search for Villa to be halted. Conferences between officials of the two governments are new being held. It is thought the United States troops will remain in Mexico Indefinitely, but will depend upon the Carranza forces to continue the active pursuit of Villa.

The Republican leaders are still try ing to evolve some kind of a solution to the muddle over the double delegation at-large to the national convention, which must be cut from eight to the second Saturday and Sunday in four, according to the law laid down by the Republican National Committee. Ed Morrow and Phil Brown, the negro, are conceded places on the "Blg Four," but the question is how to Columbus, O., to assist in the prosecu-choose the other two from the list of tion of M. F. S. S. WILLIS LEADS IN

RACE FOR JUDGESHIP.

The Seventh Appellate district was sized up as follows in the Kentucky political columns in Sunday's Enquirer: Lexington, April 24.-The seven announced candidates for the Republican nomination for Judge of the Court of Appeals, to succeed Judge C. C. Turner, are having a lively contest in the big Sevonth Appellate District of 29 counties. The nomination ordinarily is equivalent to the election, but because of the split in the Republican party in 1912, Judge Turner was victorious over Judge Andrew Jackson Kirk, Paintsville, the Republican nomines, and Jno. D. White, Manchester, Progressive ominee, at the election in November of that year.

The terms on the Appeliate bench are eight years, but in the winter of 1911 Judge Ed C. O'Rear resigned and in December of that year Governor A. E. Wilison appointed Judge Robert H. Winn, Mt. Sterling, to serve until the following election.

Those now announced for the Republican nomination are Judge A. J. Kirk, Simeon S. Willis, Ashiand; H. C. Faulkner, Hazard; Flem D. Snmp-son, Barboursville; G. W. Gourley, Beattyville; Roscoe Vanover, 14kevillo and Cloen Calvert, Hyden,

From time to time others have been mentioned as likely to make the race, but well posted politicians in the disthe action of the Republican party at trict regard the list as made up with the next primary at which the candiwill get out before the August primary. The leaders in the hunt appear, from information that has come by solicitation to the writer, to be Messrs. Willis, Kirk and Faulkner in the order named. Willis appears to have convinced the leaders in a largo number of the counties not having a candidate In the field that he is entirely qualified -the boost that the Boyd County Bar Association gave him had much to do ing and desiring the assistance of the with this—and that he fills the bill of Home Demonstrator, have nothing to their desires for a new man, one who is unshackled by obligations of a political nature, and who is free to serve the people as they are intended by the constitution to be served.

Messrs. Kirk, Fauikner, Vanover, Calvert and Gourley have been before the people in previous races and all of them know how it feels to have anoth; er secure plum they wanted. Judgs Sampson is on the Circuit Court bench in the Eleventh Congressional District.

### RALLY DAY FOR ALL SUNDAY SCHOOLS

LAWRENCE COUNTY SCHOOLS URGED TO BEST EFFORTS MAY 7TH.

To the men, women and children of Lawrence county:

I am appealing to you to rally to the banner of Lawrence county in the fierce struggle we are having with Carter county, which will be decided Mny 7, 1916. Carter county, (through its 7, 1916. spiendid and energetic l'resident, Mrs. Jno. W. Kitchen) is binding every effort to have more people in the Sunday schools May 7th than we have in Lawrence county. They are saying over in Carter county, "if Johnson County can't bent you, we can." Now let every girl and boy and man and woman from every hillside and valley in old Lawrenco respond. Pull the babies out of the cradies and take them to Sunday school on that day and then count those present fair and square and report by postal card or letter at onec to M. S. BURNS, President L. C. A.

SUMMARY OF FIRST MONTH OF H. D. W.

The work of organization of Home Demonstration Clubs has been com-

The clubs are at Loulsa, Ledocio, Yatesville, Estep, Trinity School or Glenwood, Trace Branch or Garred's Chapel, Gallup, Cordell or Wilbur, Biaine, Tarklin, Potter or Fuller and Charley. Some changes may be made in the names of the clubs and there is a possibility of one or two more, and too there are many members other than at these places, however, the clubs have the advantage of many more things than the members who are not under a club.

The county has just about been covered in a general way, of course in so short a time, with so large a county, every place could not be visited personaily, but In the future these wnnt-

Addresses have been made throughout the county, a total of 21; 252 miles have been traveled horseback, 122 on train and 24 on foot.

Complete organization was accomplished at Louisa and Gailup. The trongest support given was at tlallup, by not only girls, but fathers and mothers. In one meeting all was done that it generally takes three meetings

#### FARMERS COOPERATIVE DEMONSTRATION WORK.

The farmers of Biaine met Saturday evening at the Biaine school house for the purpose of organizing a farmers club. The activities of circuit court club. and insufficient notice to the farmers caused a small attendance and the meeting to organize was set for the first Thursday night in May, at seven llowever, a goodly number present, all of whom manifested an intsrest that is destined to place the farming industry first in Lawrence-co. At our next meeting a band will be present to give music and everybody is invited to be present that there will be no further delay in starting a club. The County Agent will discuss "silos, "how to raise and feed cattle," "how to procure a good sod on hill lands" and best kind of hogs to raise.'

#### THE HOME CIRCLE AND ITS INTERESTS.

#### Column Dedicated to Tired Mothers as They Join The Home Circle at Evening Tide.

Of all places on earth, home is the and sensitive. Its chords move with a breath; its fires are kindled with a spark; its flowers are bruised with the least rudeness. Here our hearts wear no covering, no armor Every arrow strikes them, every old wave blows full upon them. if we would have a true home, we must guard well our thoughts and actions.

The man who never praises his wife deserves to have a poor one. And the man who praises a good wife more than he deserves hasn't been born vet.

When crepe on the door tells of a mother goae, only those who have moistened a mother's grave with their tears can fully understand and read aright the black threads in the bow.

Sometimes the husty word is been spoken, the shark snappish word been carelessly uttered in the home circle The true wife's heart so often bleeds at the bitter, thoughtiess, but cutting word of a husband. When she is gone o heaven, and he "weeps o'er her bler" he will remember it.

There are none of us so poor but we can train a few roses on the humble wall and their scent and beauty will long he remembered, and many a boy instead of going to loaf upon the public highway will linger at home among the Moral degradation always begins at home.

There are many happy homes, thank God, in every community, and when they exist there goes out from them a blessed influence which can hardly be over estimated. "A real home with a mother in it'," whose hospitalde doors are ever open to those not so blessed is a wonderful power for good.

Many a child goes astray, not because there is a want of prayer or virtue at home, but simply because home lacks sunshine. A child needs smiles as much as flowers needs sunshine,

We know from sad experiences that it is very inconvenient to be poor, but no man is poor who has a happy home and its does not require lace curlains r velvet carpets to make a home hap-

The virtnes grow about the home. They cluster, bloom and shed their perfume around the fireside. Lave,huaand, wife, faiher, mother, child and name—without those words the world yould be a harren wilderness, and mon and women but hrutish beasts.

Let ue take time to get acquainted th our familles. The wealth you are

ulating may be a doubtful bless ing to the son who is a stranger to you Your beautifully kept house, busy mother, can never be a home to the daughter whom you have no time to

When hearts are broken and friends fall, this active stirring world of ours makes room for us all to go to work and forget our troublea. If it were not for something to do and the chance to do it, what would become of the mother when her baby dles? Do you think she would ever recover from such an anguish if she found nothing to do but clasp the empty cradle and fondie the unused garments? Be taken up by doing then, Oh, broken hearted chil-dren of our common parent, sorry. So hall the heart heal and the balin be ylelded. Work will keep off pity's hension list and maintain in your bosom the soul of a steadfast soldler rather than that of a whimperer and a eraven. Thank the destiny that sends you many tasks for prompt fulfiliment and many peridexing things for wise adjustment otherwise you would never forget the wound that throhs with fresh pain whenever night comes and the duties of the day are hushed to rest.

A happy home does not result from a large income. A large amount of love, plenty of good sense and a very little money will make a happy home

Never think you ean afford to be dowdy at home. Cleanliness, hair well dressed, and a smlle will make calicu look like sllk in the eyes of a father or brother.

Why is it that we so easily forget that the little things in life are what make it easy or hard? A few pleas-ant words, a warm hand clasp, a cordial letter, are simple things, but they are mighty in their induence on the lives of those about us, adding a ray of hope to many disconsolate hearts, giving a bit of courage to disappoint-ed, weary ones and helping to make our own lives sweeter at the same

## For the Children

Snow end Ice Meke Sport For Little Folks.

Photo by American Press Association.

Not for many years have the children of New York enjoyed auch a witter as weather man has provided this year. There have been half a dozen snowstorms, and some of the time the lakes have been covered with ice for skaters. You may easily believe that skates and sleds have been much in Little New Yorkers do not let such opportunities go to waste, for some of them remember winters when there was not snow or ice enough to

give them a chance to enjoy the aports of winter. The young iad in the picture has probably seen very little snow in his lifetime. However, he is making up for whatever time be has lost. His name is Duncan van Norden, and he was shoveling snow in Central park when the camera man happened along.

The Chickens' Surprise Party. In southern California the dry season lasts from aix to eight months, so there were some good aized chicks in our yard that had never seen rain. writes a correspondent of the Orange

One morning a little cloud suddenly began to send down some hig drops on the dry soil. The chicks evidently thought some one was throwing grain to them. They flew at the drops, this way and that, trying to pick them np. Peck as fast as they would they could not get a bite of anything. They heard the pattering; they saw the apots on crazy chickens, pushed each other about and looked akyward in their funny sideways fashion.

When the shower became heavy they flew to shelter, huddled together and cheeped pitifully. How we wished we could have understood what they said to each other shout then!

#### The River Jordan.

Among famous rivers must always be included the Jordan, nearly as sacred to Christians as the Ganges is to the Hindus because of the haptism in the feeding room than close to the of Christ in its waters. The Jordan, except near its source, is below the level of the ocean, and the Dead sca. where it empties, is a quarter of a mile below the surface of the Mediterraneall

There are four old fords of the Jordan. At one of these ou the Monday before Easter the pligrims of the tircek church, often thousands in number, who have come down from Jerusalem escorted by Turkish addiers, perform the well known ceremony of bathing in the sacred stream. A short distance below this is the point where the river loses itself in the lifeless waters of the Dead sea.

Natural Snow Bridges. A slow thaw, following a heavy fall

of anow, is aimost sure to form, hero and there, miniature natural bridges of snow, over which a rabbit or even a fox might run without crushing tho ahort span. According to the lay of the land, the melted snow water collects at a certain place and gradually eats its way under another part not meiting so raiddly, and this tunnel. growing larger from the increasing water, soon forms the span. in the same manner natural bridges of earth and rock are formed after hundreds of centuries of erosion, while the snow bridges are formed in a few hours and often disappear as quickly.

Under the bridge the trains go by With whistle and shrick and pull, And I mean to go right off in a train When I am big enough.

I shall so to a land where bananas grow. And oranges, too, on trees; Where every one cats whatever he likes And no one says, "If you please."

I shall drink my milk from a eccanut
And munch the sugar cans,
And when I am tired of that faroff land,
Why, I'll come home again!

### Making the Little Farm Pay

By C. C. BOWSFIELD 

we will rise up and call you blessed." This sentence is in a letter received from a woman poultry owner.

The failure to get eggs in winter. when they are high priced, is a common experience, and it is one of the bad phases of the poultry business. Experts who have brought their bens up lo a profitable basis are getting not a matter of luck at all. A regular system of management must be followed.

Any general purpose breed or any o the small egg producing breeds will age poultry owner. In view of the importance of marketing a certain proportion of poultry meat every season it may be best to adopt one of the medium sized breeds, such as Plymouth Rock, Wyandotte, Orpington, or ilhode island Reds. It is worth keeping in contests in recent years these fowls have more than held their own with cated that a second appointment as the Leghorns. Whatsver stock is de-Maid of theor would be made shortly. cided on, it is best to work toward full blooded poultry.

Select eggs for hatching from chickens of high productive capacity and hatch in March. Then select puliels to the desired number for the following winter and give some attention all summer to their condition. Keep only vigorous, healthy chickens. Meke theru keep up a steady growth. These will

WHITE OFFINGTONS

be the best winter larers, starting their regular production when five or six months old. Hens a year older will rank next. Do not keep bens more than two winters nniess they are superior for breeding purposes. They will not produce many eggs, compared to pullets, but if they have been great producers it is well to retain a few of them for a conpie of years longer.

Nothing new can be said about the manner of housing poultry. The hulldings must be dry and clean, well vantilated and free from drafts. Open frout houses give the best ventilation. A floor can be made dry without great expense. It is a good idan to fill in the gravel to insure drainage. This can be floors are fevored by some owners. One of the first points in cleanliness is to have a feeding room separate from The roosting quarters. Nests are better roosts. To have any success worth while the premises must be kept free from vermin. This is not difficult, but it requires persistent effort and watchfulness. Anybody who will not give heed to this injunction should keep out

of the pouliry husiness. The principles which govern feeding are no less important than the others. but fortunately it is not necessary to have a great proportion of the higher priced grains. One great ossential is variety. One gets a balanced ration most suitable for egg production by providing a regular supply of green food to go with dry material through the winter months. It is easy to provide apronted oats, cubbage or beets it is also necessary and easy to keen the chickens supidled with meat scrap and ground bone. Taking one season with another, no grains are chesper than corn and oats, but it is best to have the oats ellipsed or ground and the corn cracked.

Where a certain emount of green feed is regularly supplied it is hardly necessary to give wet mashes. A dry mash fed in hoppers is preferable. At the same time a warm mash of mois tened bran and shorts la not a bad thing on a cold day. A small supply of skinmilk improves the poultry house diet and is cheap. The stale bread and crackors obtainable at reslaurents and bakerles cost little and to-some axtent take the place of graiu. Clean water and grit should be within reach at all times. Charcoal und oyster shell are excellent articles for poultry. It is best to have a clean scratching floor for chickens, and every morning the fowis should be required to scratch in a litter of straw or chaff for wheat, corn, antiflower seeds and such things. This gives whole-some exercise. See that the laying hens are not too fat, but they must be kept vigorous and hearty. In supplying feed according to these suggestions one cannot so far astray.

#### · LETCHER COUNTY AND WHITESBURG.

#### What is Happening in this Rich Coal Territory of Kentucky.

WIHTESHURO, KY., April 25 .- After closely investigating conditions in Letcher county violations of the law, the grand jury closed a two weeks session Haturday marning having return-ed 281 indictments, 131 of which were for violations of the local option laws, the traffic of whiskey largely in the coal fields sections. The investigations along the lines of the lifegul sale of whiskey was especially complete and thorough, as were pistol toting and 22 indictments were returned for the la-ter cvii. Judge John F. Butler is fuily determined to put whiskey and its He will thus decrease the wave crime and lawiesness rampant in the county at least ninety per cent. It expected that the circuit court will continue the remainder of the week. \* \* \* \*

The case of the commonwealth against E. L. Miller and Walter Stewart charged with the murder of Police-man Ed W, Roggs in Dunham In the coai fleids last November was fougid out in the circuit court during the past week, the men being tried separately, Miller received a life term sentence in the penitentiary Thursday night and Friday morning the trial of Stewart the afternoon. He received from 10 to 21 years in the penitentiary, Jno. Horn of Hazard the third man held in the Hoggs murder will be tried during the present week. Much interest was man-lfested in the trials of Miller and Stewart. They came from Campbell-co., Tenn., and were employed in the coal fields at the time of the nurder. 1 1 1 1

Saturday morning the case of the commonwealth against James Collier a Cumberland river farmer charged with seduction of his fittle 13 year old daughter, faster Coffier, was cailed in the Letcher circult court, and, the jury selected the taking of evidence was he gun. A delay occurred Saturday even-ing owing to the absence of two important witnesses for the common-wealth. Officers were sent to Cumberland river for the witnesses and it is said now that the trial will not be resumed until tomorrow. The grand jury a few days ago, investigated the Collier case, reurned an indictment and Judge John F. Butier at once set the case down for trial at this term. This is the only case of the kind that ever came up in the circuit court, and, owing to the unusual circumstances connected thereto much interest is centered in the trial.

Mrs. Waiter Fletcher, aged 23, attempted suicide at her home in East Whiteshurg Saturday afternoon by ta-king an overdose of carbolic acid Physiciana who were immediately sum-moned stated that the draught would not end fatally. No cause is given for her rash act. Mr. Fletcher was in Virginia at the time.

A pretty wedding occurred at the residence of Eld. John A. Craft here Friday evening when Mr. Eibert Fugate, aged 21, of McRoberts was married in Miss Jessie Hogg, aged 20, of Pert creek. They lift on the late train for McRoberts where they will reside.

Hilliard, the 15 year old son of Tilden Wright, a Craftsville farmer, died Thursday morning at an early hour after a hrief lilness of a strange discase which could hardly be diagonised by the leading physicians of the mountains. Young Wright was taken to the Farland of Giasgow was here this week St. Joseph's Infirmary, Lauisville, ten days ago, but without avail. The terment took piace Friday morning in the Craft cemetery at Sergent.

† † † † Pending the summoning of witnesses in the James Collier case from Cum-berland river and desiring to rush the work of the court Judge Hutler called the John D. Tire Letcher Fiscal Court met last reek and named eight county road commissioners, one in each voting precinct in the county and the men will have charge of the \$200,000 good roads bond money to be voted May 6. The commissioners named are as follows: Ward, Whitesburg; B. F. Kincer, West Ward Whitesburg: Eil Ison, Jr. Upper Rockhouse; Jasper Coilins, Lower Rockhouse: Grant Ison, Line Fork: John J. fluff, Cumberland River; D. C. Muilins, McRoberts; M. T. Reynolds, Jenkins, Spencer Johnson, it is said the commissioners named are satisfactory to the voters of the county, and it is now believed that the good roads sentiment will again increase and the issue carry by a safe majority May 6. Every effort is to be made to carry the county for bonds and thus lift one of the richest counties in the State out of the mud. Cilzens get busy and let Lecher show to the world that we are a progressive people ready to do any-thing for the up building of this giorious hill country.

#### A HAPPY SAVAGE. PRISONERS FORCED TO DRINK BLOOD OF OXEN.

London, April 21.-A Reuter despatch from Cape Town, dealing with the report of a commission of inquiry into the treatment of prisoners of war by the Germans in Southwest Africa follows:

"A sensation has been caused by the publication of the official report of the commission of the inquiry into the treatment of prisoners of war by the Germans in the southwest African campaign, revealing another story of the shocking treatment of British prisners and showing a complete lack of organization or central control.

"Food rations were coarse and be-came so insufficient that men were reduced to waiting in line to drink the blood of slaughtered oxen and to bolling the soft parts of hides to extract nourishment. They were scantily clad and harshly treated, some being sent on long journeys clad in a tunic, a short loin cloth and sandals and heimet, a spectacle says the report for women natives who saw them on the
